

COMING TO EUGENE THIS HOLIDAY SEASON!

LightTheWorld[!] Giving Machine

A Giving Machine is a unique vending machine that allows people to support local and global non-profit organizations. Instead of purchasing a snack for yourself at the Giving Machine, you're providing things like a sheep to a family in a developing country, funding for a polio vaccine, money to buy a pair of shoes, or a dozen meals for a local food bank. In Eugene this year, local non-profit organization recipients include Food for Lane County, Shelter Care, CASA, Catholic Community Services of Lane County, and Community Sharing. 100% of all donations go to the local and international partner agencies.
